Property Details

Property History: The subject property was annexed into the City of San Antonio by Ordinance 18115, dated September 25, 1952 and zoned "A" Single Family District. Under the 2001 Unified Development Code, established by Ordinance 93881, dated May, 03, 2001, the property zoned "A" Single Family District converted to the current "R-5" Residential Single-Family District.

Topography: The property does not include any abnormal physical features such as slope or incursion in a flood plain.

Overlay and Special District Information:

"AHOD"

All surrounding properties carry the "AHOD" Airport Hazard Overlay District, due to their proximity to an airport or approach path. The "AHOD" does not restrict permitted uses, but can require additional review of construction plans by both the Development Services Department and the Federal Aviation Administration.

"MLOD-2"

All surrounding properties carry the "MLOD-2" Military Lighting Overlay District, due to their proximity to Lackland Air Force Base. The "MLOD-2" does not restrict permitted uses, but does regulate outdoor lighting in an effort to minimize night-time light pollution and its effects on operations at the military installation.

ALTERNATIVES:

Current: The present zoning district designation of “R-5” Residential Single-Family District provide areas for medium- to high-density, single-family residential uses where adequate public facilities and services exist with capacity to serve development. These districts are composed mainly of areas containing single-family dwellings and open area where similar residential development seems likely to occur. Residential single-family provides minimum lot size and density requirements in order to preserve neighborhood character.

Proposed: The proposed “RM-5” Residential Mixed District provides areas for medium to high-density residential uses where adequate public facilities and services exist with capacity to serve development. These districts are composed mainly of areas containing a mixture of single-family, two-family and multi-family dwellings and open space where similar residential development seems likely to occur. The district regulations are designed to encourage a suitable neighborhood environment for family life by including among the permitted uses such facilities as schools and churches; and to preserve the openness of the area by requiring flexible yard and area standards. Mixed residential districts provide flexible density requirements in order to allow for market and design flexibility while preserving the neighborhood character and permitting applicants to cluster development in order to preserve environmentally sensitive and agricultural land areas.

FISCAL IMPACT:

None.

PROXIMITY TO REGIONAL CENTER/PREMIUM TRANSIT CORRIDOR:

The subject property is not within a Regional Center or located within the Premium Transit Corridor.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Denial.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is located within the West/Southwest Sector Plan and is currently designated as “General Urban Tier” in the future land use component of the plan. The requested “RM-5” base zoning district is consistent with the future land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff finds evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The entire area is zoned “R-5” and consists of single-family homes. The requested “RM-5” Residential Mixed district is not consistent with the development pattern of the area and introduces more density into a primarily single-family area.

3. Suitability as Presently Zoned:

The current “R-5” Residential Single-Family District is an appropriate zoning for the property and surrounding area. The proposed “RM-5” Residential Mixed is an appropriate zoning in a “General Urban Tier”, however there is no development pattern with more than one residential unit in this area. The proposed zoning change would change the character of the neighborhood with the introduction of three (3) residential units.

4. Health, Safety and Welfare:

Staff has not found indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The proposed rezoning appears to conflict with the following goals, principles, and objectives of the West/Southwest Sector Plan:

HOU-1.2 Provide a range of housing types and prices to accommodate all residents within the Sector and within the same neighborhood.

Goal HOU-2 New housing developments locate near existing community facilities, schools, and physical infrastructure (e.g., streets, water, sewer, etc.) with sufficient capacity to serve new developments.

6. Size of Tract:

The subject property is 0.1873 acres, which could reasonably accommodate 3 residential dwellings.

7. Other Factors:

The subject property is located within the Lackland AFB Awareness Zone/Military Influence Area. In accordance with the signed Memorandum of Understanding, JBSA was notified of the proposed request.

Applicant is rezoning to have three (3) residential units.
