Comprehensive Land Use Categories

Land Use Category: "Neighborhood Commercial"

Description of Land Use Category:

Neighborhood Commercial provides small areas for offices, professional services, service and shop-front retail uses that can be served by pedestrian access and are generally less than 5000 square feet. These include less intense commercial uses with low-impact convenience, retail, or service functions. No drive-through establishments are permitted. Residential uses can be in the same building with retail and office uses. This includes live/work units, small apartment buildings, residential units above retail, and townhouses. Examples of uses include small insurance or doctor's offices, bakery, small restaurant, convenience store without gas pumps, copy service, veterinary office, bank without drive-through, gift shops, social services, and cafes. Community green areas with benches, trees and landscaping; small plazas; and public gathering spaces are encouraged as part of the neighborhood commercial area. Parking is encouraged in the rear of the buildings and should be appropriately buffered from adjacent residential uses through landscaping screening and lighting controls. Buildings should have a predominant percentage of windows across the ground level façades. Service yards are screened from view at the rear of the site. Locations for Neighborhood Commercial uses include arterials and the intersection of two collectors.

Permitted Zoning Districts: NC, C-1, O-1

Land Use Category: "Mixed Use"**Description of Land Use Category:**

Mixed-use allows for a concentrated, well structured, and integrated blend of residential, retail, service, office, entertainment, leisure, and other related uses at increased densities. This use pattern creates a pedestrian and transit oriented rather than an automobile oriented environment. Building and architectural design of a Mixed-use development should stress quality architecture and urban design features, including parks/plazas and landscaping in a safe, attractive, pedestrian and bicycle friendly environment. A majority of the ground floor façade should be composed of windows. Centralized parking areas should be located behind buildings. Mixed Use Centers should be linked to adjoining land uses with safe, attractive and convenient vehicular and pedestrian access. Mixed-use development is preferred along arterials in a nodal pattern around a transit stop, where density would decrease towards the edge of the node.

Permitted Zoning Districts: NC, C-1, C-2, P, O-1, O-2, RM-4, RM-5, RM-6, MF-25, MF-33, MF-40, MXD, TOD, IDZ

RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Planning Commission (7-0) recommend Approval.

The requested Plan Amendment from “Neighborhood Commercial” to “Mixed Use” will allow the applicant to rezone to “IDZ-1”. Further, this will provide more consistency with the current land use pattern in the area.

The subject property is located within the Nogalitos/South Zarzamora Community Plan and is currently designated as “Neighborhood Commercial” in the future land use component of the plan. The requested “IDZ-1” base zoning district is not consistent with the future land use designation. Therefore, the applicant is seeking a Plan Amendment to “Mixed Use.”

The Plan Amendment meets the goals of the Nogalitos/South Zarzamora Community Plan to advance the City of San Antonio Housing Goals and Strategies by encouraging investment in housing rehabilitation and maintenance and by providing a variety of housing types that sustain all ages and economic groups.

ALTERNATIVES:

1. Recommend Denial of the proposed amendment to the Nogalitos/ South Zarzamora Community Plan, as presented above.
2. Make an alternate recommendation.
3. Continue to a future date.
