BACKGROUND INFORMATION:

Project Background

During the FY 2021 Budget process, City Council approved \$2.2 million for the NAMP Program and \$5 million for the Sidewalk Maintenance Program, a component of the IMP to complete sidewalk and pedestrian-related projects. The Public Works Department (PWD) regularly solicits Task Order Contracts for construction services and utilizes various contractors to complete the construction of street and sidewalk-related projects.

These proposed ordinances authorize the execution of four Task Order Contracts for contract capacity in the total amount of \$6,151,065.92 for the construction of the FY 2021 NAMP Program and the FY 2021 IMP Sidewalk Program projects located City wide. The four contracts will provide construction services for flatwork which includes, but is not limited to, the construction of sidewalks, sidewalk repairs, curbs, wheelchair ramps and any other work required for the completion of the assigned projects located throughout the City.
