ISSUE:

Comprehensive Plan

Comprehensive Plan Component: Lone Star Community Plan

Plan Adoption Date: March 21, 2013

Lone Star Community Plan Focus Areas:

LU-2: Incorporate site and building design principles including attractive and functional streetscapes, inviting public spaces, creative design and material selection, sustainable development techniques, and a mix of uses into new development and redevelopment projects.

LU-3: Attract/retain office, retail, and service uses through zoning and development incentives.

QL-3: Rehabilitate existing housing stock.

Comprehensive Land Use Categories

Land Use Category: “Low Density Residential”

Description of Land Use Category:

Low Density Residential primarily includes single-family detached houses on individual lots. Detached and attached accessory dwelling units such as granny flats and garage apartments are acceptable when located on the same lot as the principal residence. Existing structures that were originally constructed as multi-family housing may continue this use when located within the low-density residential areas. Low Density Residential uses should be located away from major arterials.

Permitted Zoning Districts: “R-3”, “R-4”, “R-5”, “R-6”

Land Use Category: “Low Density Mixed Use”

Description of Land Use Category:

Low Density Mixed Use includes a mix of low intensity residential and commercial uses integrated into one structure or found on the same lot or block. The mix of uses promotes walk-ability, therefore all mixed use developments should be designed for the pedestrian. This form of development is typically located along or near major arterials or collectors and may serve as a transition from High Density Mixed Use to lower intensity land uses such as Low Density Residential.

Permitted Zoning Districts: RM-4, MF-18, MF-25, MF-33, O-1, NC, C-1, C-2P, IDZ, TOD, MXD, FBZD, AE-2, AE-4

RECOMMENDATION:

Staff Analysis & Recommendation: Staff recommends Approval.

The applicant seeks a Plan Amendment from “Low Density Residential” to “Low Density Mixed-Use”. The proposed “Low Density Mixed Use” is consistent with land use in the area and is established on properties to the north and south of the subject site. This land use is also appropriate abutting “Public Institutional” land use. The desired “IDZ-2” base zoning proposes commercial and residential uses, which are classified and consistent with the “Low Density Mixed Use” land use category.

ALTERNATIVES:

1. Recommend Denial of the proposed amendment to the Lone Star Community Plan, as presented above.
2. Make an alternate recommendation.
3. Continue to a future date.
