ISSUE:

None.

ALTERNATIVES:

Current: The present zoning of "FR" Farm and Ranch District is intended to preserve rural character and culture by implementing larger minimum lot sizes and by prohibiting incompatible land uses. The "FR" district provides areas for agricultural operations and natural resource industries. These districts are composed primarily of large tracts of land that are vacant or in agricultural uses and may contain a minimal number of dwellings and accessory structures. "FR" zoning protects and preserves valuable agricultural areas, implements

agricultural and natural resource protection, preserves rural areas, and identifies areas appropriate for agricultural preservation. The "FR" district may be used to establish and buffer low intensity uses along streams, floodplains, and similar environmentally sensitive areas.

Proposed: The proposed zoning designation of “MHC” is designed to provide suitable locations for HUD-code manufactured homes in manufactured home parks.

FISCAL IMPACT:

None.

PROXIMITY TO REGIONAL CENTER/PREMIUM TRANSIT CORRIDOR:

The property is not part of a Center Plan and is not within premium transit corridor.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (11-0) recommend Approval, pending Plan Amendment.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject property is located within the Heritage South Sector Plan and is currently designated as “Agribusiness RIMSE Tier” in the future land use component of the plan. The requested “MHC” base zoning district is not consistent with the future land use designation. The applicant is seeking a Plan Amendment to “Suburban Tier.” Staff recommends Approval. The Planning Commission recommendation is pending the December 16, 2020 hearing.

2. Adverse Impacts on Neighboring Lands:

Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The current “FR” Farm and Ranch can bring intense agricultural uses to the area. The proposed “MHC” would provide a residential alternative.

3. Suitability as Presently Zoned:

The current “FR” zoning district is appropriate for the property and surrounding area. The proposed “MHC” Manufactured Housing Conventional District is also an appropriate use and allows HUD-code manufactured homes as well as permanent single-family residential homes.

4. Health, Safety and Welfare:

Staff has not found indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The proposed rezoning does not appear to conflict with the following goals, principles, and objectives of the Heritage South Sector Plan:

Goal HOU-1: An array of housing choices throughout the area with an appropriate mix of densities and housing types

Goal HOU-1.1: Encourage a mix of housing types, including multi-family homes, custom homes, garden homes, and single-family detached homes to provide “life cycle” housing options (ranging from college students, young adults, families, and retired/ senior) within the area

Goal HOU-2.2: Promote sustainable quality housing and development through green building; site design; landscape techniques, and energy resources such as CPS Windtricity and Solartricity

6. Size of Tract:

The subject property is 521.58 acres, which could reasonably accommodate the proposed residential uses.

7. Other Factors:

None.
