**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff recommends Approval.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on the approval criteria below.

**1. Consistency:**

The subject property is located within the Midtown Regional Center Plan and is currently designated as “Urban Low Density Residential” in the future land use component of the plan. The requested “RM-5” base zoning district is consistent with the future land use designation and the surrounding single-family parcels.

**2. Adverse Impacts on Neighboring Lands:**

Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The abutting and adjacent properties are zoned “RM-4” Residential Mixed District and allow for up to four (4) units. The proposed “RM-5” is appropriate and limits density to three (3) units.

**3. Suitability as Presently Zoned:**

The current “R-6” District is an appropriate zoning for the property. The proposed “RM-5” is consistent with the neighborhood, lot size, and corner location of the property. The requested change would allow for the three existing units on the property and would allow for separate utility meters.

**4. Health, Safety and Welfare:**

Staff has not found indication of likely adverse effects on the public health, safety, or welfare.

**5. Public Policy:**

The proposed rezoning does not appear to conflict with the following goals, principles and objectives of the Midtown Regional Center Plan:

Goal 5: Broaden Housing Choices

- Offer a range of housing types and price-points to meet the diverse needs of residents such as seniors, students, families, and others.
- Conserve existing affordable housing and the existing diverse mix of housing types and expand

affordable housing options.

- Rehabilitate or redevelop housing that is in poor condition.
- Focus most new housing development closer to multimodal transportation corridors.

Goal 10: Pursue Transformative Projects

- Elevate Midtown's aesthetic appeal, stimulate economic growth, and meet local needs by transforming vacant properties and older buildings through reuse, redevelopment, or new development.

**6. Size of Tract:**

The subject property is 0.155 acres, which could reasonably accommodate three dwelling units.

**7. Other Factors:**

The applicant intends to bring the existing duplex and garage apartment into compliance to allow for all three (3) units to have separate utility meters.
