ISSUE:

Comprehensive Plan

Comprehensive Plan Component: Government Hill Neighborhood Plan

Plan Adoption Date: October 2010

Plan Goals:

Low Density Mixed Use “provides a mix of low intensity residential and commercial uses.”

Low Density Residential “should not exceed 9 dwelling units per acre.”

Comprehensive Land Use Categories

Land Use Category: “Low Density Residential”

Description of Land Use Category: Low Density Residential Development includes single-family residential Development on individual lots. Recommended development densities in Low Density Residential areas should not exceed 9 dwelling units per acre. The plan acknowledges that medium density uses that have historically existed in the neighborhood can remain; however the conversion of existing single-family homes into medium density units is discouraged. Lower-impact community uses such as schools, religious assemblies, parks and community centers can be included in this category and should be centrally located for convenient neighborhood access.

Permitted Zoning Districts: R-3, R-4, R-5, R-6

Land Use Category: “Low Density Mixed Use”

Description of Land Use Category: Provides a mix of low intensity residential and commercial uses. May be located in adjacent lots or integrated in one structure. The mix of uses within a block or building should promote compatibility between commercial and residential uses Shared parking located to the rear of structures, limited curb cuts and monument signs encouraged. Building and architectural design of a mixed use development should stress quality, including open space, landscaping, and a safe, attractive, and pedestrian and bicycle friendly environment. Examples include professional/personal services, shop front retail with restaurants, cafes, and gift shops.

Permitted Zoning Districts: R-3, R-4, R-5, R-6, RM-4, RM-5, RM-6, MF-18, NC, C-1, IDZ, TOD, MXD, UD, O-1, FBZD

RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Planning Commission (11-0) recommend Approval.

The applicant is seeking a Plan Amendment to “Low Density Mixed Use” to rezone to "IDZ-1" Limited Intensity Infill Development Zone District with uses permitted for three (3) dwelling units. The three (3) residential units have been in the same footprint since 1943. Typically, the land use could remain the same as well as the base zoning district and the additional units could be addressed with a Conditional Use, however the “IDZ-1” is needed to resolve existing building footprint encroachments.

The proposed “Low Density Mixed Use” is appropriate for the subject property and would essentially allow the continued use of the property as three (3) dwelling units.

ALTERNATIVES:

1. Recommend Denial of the proposed amendment to the Government Hill Neighborhood Plan, as presented above.
2. Make an alternate recommendation.
3. Continue to a future date.
