Comprehensive Land Use Categories

Land Use Category: “Low Density Residential”

Description of Land Use Category: Low Density Residential includes single-family detached houses on individual lots, including manufactured and modular homes. RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval.

The applicant seeks a Plan Amendment from “Low Density Residential” to “Employment Flex/Mixed-Use” for an office/warehouse flex space. The proposed “Employment Flex/Mixed-Use” is compatible with other land uses in the area and along Interstate 10 West. “Urban Mixed Use” would permit residential mixed, multi-family, office and commercial uses. This request is also suitable to the goals of the Comprehensive Plan to ensure that future land use classifications adjacent to military installations are well-suited to the goals and objectives of the area. Joint Base San Antonio does not object to the proposed plan amendment and has provided the following comment:

- a. In order to mitigate potential interference with existing JBSA operational systems, please coordinate with 502 CS Spectrum Manager prior to use of any Spectrum dependent systems (ie.: two-way radio communications, or any type of wireless technologies) during construction. If applicable, coordination requested by facility user prior to installation/use of any Spectrum dependent commercial or manufacturing equipment.

ALTERNATIVES:

1. Recommend Denial of the proposed amendment to the Extraterritorial Military Protection Area Land

-
2. Use Plan, as presented above.
3. Make an alternate recommendation.
3. Continue to a future date.
