Comprehensive Plan

Comprehensive Plan: Extraterritorial Jurisdiction Military Protection Area Land Use Plan

Plan Adoption Date: September 19, 2019

M Goal 1: Incompatible land uses in the vicinity of Joint Base San Antonio (JBSA) locations are minimized in order to safeguard operational mission requirements.

M Goal 3: Communication and coordination between San Antonio, adjacent jurisdictions, and the military engender a strong regional approach to compatibility issues.

M Goal 6: San Antonio invests and coordinates with the military to minimize potential future impacts that could be created as a result of sequestration or base closure or realignment initiatives.

Comprehensive Land Use Categories

Land Use Category: “Low Density Residential”

Description of Land Use Category: Low Density Residential includes single-family detached houses on individual lots, including manufactured and modular homes. This form of development should not typically be located adjacent to major arterials. This land use category can include certain nonresidential uses such as schools, places of worship, and parks that are centrally located for convenient neighborhood access.

Permitted Zoning Districts: R-4, R-5, R-6, NP-8, NP-10, and NP-15

Land Use Category: “Urban Low Density Residential”

Description of Land Use Category: Urban Low Density Residential includes a range of housing types including single-family attached and detached houses on individual lots, small lot residences, duplexes, triplexes, fourplexes, cottage homes, manufactured homes, low-rise garden- style apartments, and manufactured home parks. This land use category may also accommodate small scale retail and service uses that are intended to support the

adjacent residential uses. Other nonresidential uses, including, but not limited to, schools, places of worship, and parks are appropriate within these areas and should be centrally located to provide easy accessibility. Typical densities in this land use category would range from 7 to 18 dwelling units per acre. PUD and TOD may be considered consistent with this land use category, provided the permitted uses included on the zoning site plan and zoning ordinance are consistent with the uses and densities outlined above.

Permitted Zoning Districts: R-1, R-2, R-3, R-4, R-5, R-6, RM-5, RM-6, MF-18, IDZ-1, MH, MHC, MHP, MXD, and NC

RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval.

The applicant seeks a Plan Amendment from “Low Density Residential” to “Urban Low Density Residential” for a residential development that includes duplexes. The proposed “Urban Low Density Residential” is compatible with other land uses in the area and along Dietz Elkhorn Road, a secondary arterial. “Urban Low Density Residential” would permit a higher density of residential and multi-family with neighborhood commercial uses. The property previously was approved for a land use change from “Agricultural” to “Low Density Residential,” per Ordinance 2021-01-21-0052. This request is also suitable to the goals of the Comprehensive Plan to ensure that future land use classifications adjacent to military installations are well-suited to the goals and objectives of the area. Joint Base San Antonio does not object to the proposed plan amendment and has provided the following comment:

- a. In order to mitigate potential interference with existing JBSA operational systems, please coordinate with 502 CS Spectrum Manager prior to use of any Spectrum dependent systems (ie.: two-way radio communications, or any type of wireless technologies) during construction. If applicable, coordination

requested by facility user prior to installation/use of any Spectrum dependent commercial or manufacturing equipment.

ALTERNATIVES:

1. Recommend Denial of the proposed amendment to the Extraterritorial Military Protection Area Land Use Plan, as presented above.
2. Make an alternate recommendation.
3. Continue to a future date.
