**Staff Analysis and Recommendation:** Approval

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on the approval criteria below.

**1. Consistency:**

The property is not located within any adopted Neighborhood or Sector Plan. The requested “IDZ” base zoning district with uses in “C-2” and “RM-4” are consistent with the surrounding zoning and development pattern.

**2. Adverse Impacts on Neighboring Lands:**

The existing residence at the intersection of East Grayson and Austin Street along with the existing residence in the rear presents an opportunity for a live work development pattern based on the location of the subject property.

**3. Suitability as Presently Zoned:**

The existing “I-1” zoning district is not an appropriate zoning district for the area and is not consistent with surrounding established residential land uses.

**4. Health, Safety and Welfare:**

Staff has found no indication of likely adverse effects on the public health, safety or welfare.

**5. Public Policy:**

The request does not appear to conflict with any public policy objective.

**6. Size of Tract:**

The subject property measures 0.1653 of an acre in size and is fully developed with two single family residences and parking.

**7. Other Factors:**

None.
