RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends approval

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The subject area is located within the Eastern Triangle Plan, and is identified with various land uses in the future land use component of the plan. The requested base zoning districts are consistent with the adopted land use designations. Staff has also recommended conditional uses and specific use authorizations, where applicable, to prevent nonconforming uses from occurring, and keep the base district consistent with the future Land Use Plan.

2. Adverse Impacts on Neighboring Lands:

Staff has found no evidence of likely adverse impacts on surrounding properties.

3. Suitability as Presently Zoned:

Most of the existing nonresidential zoning districts are not consistent with the Eastern Triangle Community Plan and its Land Use map. Similarly, many of the residential zoning districts are not the most appropriate districts based on the lot sizes. There are multiple lots along the major corridors with high-intensity zoning districts such as “C-3”, “L” and “I-1”. The Community Plan’s Land Use designation of Neighborhood Commercial and Community Commercial prevents locating zoning districts with such intensities. Similarly, most of the lots are over 5,000 square feet; which makes them eligible for more appropriate zoning districts of “NP-8”, “NP-10” and “NP-15”.

4. Health, Safety and Welfare:

Staff has found no indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The existing zoning districts are neither consistent nor the most appropriate for the adopted land use designations.

6. Size of Tract:

The subject area is 522.78 acres.

7. Other Factors:

None.
