LAND USE ANALYSIS:

Sector Plan Criteria for review:

- The recommended land use pattern identified in the Sector Land Use Plan inadequately provides appropriate optional sites for the land use change proposed in the amendment.
- The amendment must constitute an overall improvement to the Sector Plan and will not solely benefit a particular landowner or owners at a particular point in time.
- The amendment must uphold the vision for the future of the Heritage South Sector Plan.

The proposed Plan Amendment to Suburban Tier will provide for an array of housing choices for the Heritage South Sector community. The applicant requests this Plan Amendment change to Suburban Tier land use classification in order to develop a single-family subdivision, which is appropriate for the property's location off of Highway 281. The subject property is a 283.27 acre vacant parcel track. The property is zoned as "FR" Farm and Ranch. The proposed development meets the housing priority, values, and goals of the Heritage South Sector Plan. The Suburban Tier use classification is consistent with the land use designation of the Heritage South Sector Plan and compatible with the existing development pattern.

The amendment will not adversely impact a portion of, or the entire Planning Area by;

- Significantly altering acceptable existing land use patterns, especially in established neighborhoods.
- Affecting the existing character (i.e. visual, physical, and functional) of the immediate area.
- Creating activities that are not compatible with adjacent neighboring uses.
- Significantly alter recreational amenities such as open space, parks, and trails.

The proposed Plan Amendment to "Suburban Tier" will provide support for the development of new housing and allow the applicant to seek the appropriate zoning classification. The development of the subject property with the Suburban Tier use classification will contribute toward the Heritage South Sector Plan's vision of compatibility by not significantly altering the existing development pattern. The "Suburban Tier" land use classification would support the goals of the Heritage South Sector Plan. The proposed change is not anticipated to pose any negative impact on adjacent neighboring uses or adversely affect any recreational amenities in the area.

ALTERNATIVES:

1. Recommend denial of the proposed amendment to the Heritage South Sector Plan, as presented above.
2. Make an alternate recommendation.
3. Continue to a future date.

FISCAL IMPACT:

None.

RECOMMENDATION:

Staff recommends approval. The proposed amendment to Suburban Tier will provide for the development of housing in the area.
