**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff recommends Approval.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on the approval criteria below.

**1. Consistency:**

The subject property is located within the Northwest Community Plan and is currently designated as Community Commercial in the future land use component of the plan. The requested "C-2" Commercial District is consistent with the adopted land use designation.

**2. Adverse Impacts on Neighboring Lands:**

Staff has found no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The zoning change request is consistent with the surrounding pattern of development.

**3. Suitability as Presently Zoned:**

The existing "C-2" district is appropriate for the subject property.

**4. Health, Safety and Welfare:**

Staff has found no evidence of negative impacts on the public health, safety or welfare of the surrounding community.

**5. Public Policy:**

The request does not appear to conflict with any public policy objectives.

**6. Size of Tract:**

The subject property measures a total of 2.998 acres in size, which is sufficient to accommodate the uses permitted in the "C-2" district and the typical required parking.

**7. Other Factors:**

The conditional zoning procedure is designed to provide for a land use within an area that is not permitted by the established zoning district but due to individual site considerations or unique development requirements

would be compatible with adjacent land uses under given conditions. The granting of conditional zoning shall only be for the conditional use named in the ordinance approving the conditional zoning district.
