Upon adoption of the 2001 Unified Development Code, the “B-1” zoning district converted to the current “C-1” Light Commercial District. Overlay and Special District Information: All surrounding properties carry the "AHOD" Airport Hazard Overlay District, due to their proximity to an airport or approach path. The "AHOD" does not restrict permitted uses, but can require additional review of construction plans by both the Development Services Department and the Federal Aviation Administration.

The Highway 151 Gateway Corridor District (“GC-2”) provides site development standards for properties within 1,000 feet of Highway 151 between Highway 90 and the western City Limits. The standards primarily address building placement, landscaping, building materials and signage to promote a coordinated development scheme for the Corridor. A zoning review is performed by the Zoning Section of the Development Services Department.
