**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff recommends Approval.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on the approval criteria below.

**1. Consistency:**

The subject property is located within the Heritage South Sector Plan and is currently designated as Low Density Mixed Use in the future land use component of the plan. The requested “R-3” and “R-4” base zoning districts are consistent with the adopted land use designation.

**2. Adverse Impacts on Neighboring Lands:**

Staff has found no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request.

**3. Suitability as Presently Zoned:**

The existing base zoning “UD” is not consistent with the surrounding base zoning districts. The “UD” district is designed to be a mixed use district, but this area has been subdivided as a primarily single-family residential area.

**4. Health, Safety and Welfare:**

Staff has found no indication of likely adverse effects on the public health, safety or welfare.

**5. Public Policy:**

The request does not appear to conflict with any public policy objective.

**6. Size of Tract:**

The subject property is a 16.929 acre tract and is sufficient to accommodate the proposed Residential Single-Family subdivision development and parking requirements.

**7. Other Factors:**

The subject property is an undeveloped subdivision plat.
